Verifone®

Ruby2

Ruby2 is equipped with a fully touch screen console providing fast, efficient order taking and payment processing. Its multi-core, high-capacity processor allows Ruby2 to process functions with increased speed, allowing for easier store and customer management, as well as the flexibility to grow in functionality as business needs change or expand.

Ruby2 is compatible with the latest Verifone product offerings, which include site management software to efficiently manage multiple locations seamlessly, and the latest in fuel control management. With Ruby2, all components of convenience store management can be easily performed with one centralized device.

- Customizable layout allows for quick cashier adoption

- Sleek design allows for smaller footprint at the counter, freeing up valuable space for more products

- Ruby2 integrates with all Commander series of site controllers

- Custom reports and a library of over 60 standard reports provide immediate access to detailed site information

Specifications

Processor
1.86GHz Intel Atom Dual Core CPU

Memory
2GB solid-state SATA Flash; 2GB DDR3 RAM, scalable to 4GB

Display
LED-backlit 15" TFT XGA high brightness display

Connectivity
10/100/1000M Ethernet port, 6 USB ports, 2 cash drawer ports with RJ-45 connectors for solenoid control, DVI connector for second display, audio mic-in and line-out connectors, 100-240V 50/60Hz operation, 8 × RS-232 serial ports

Communications
Supports multi-terminal operations in a LAN configuration

Operating System
Secure real-time Linux, backup battery for power loss protection

PIN Pad Support
Verifone Engage devices and MX900 series

Scanner Support
Supports up to two scanners

Environmental
0º C to 40º C operating temperature

Physical
18" H × 13.5" W × 11" L; 15 lbs/6.8 kg

Other Standard Features
Triple-track MSR for reading loyalty and ID cards
